LALIT CHANDRA BHARALI COLLEGE, MALIGAON
2019 - 2022
B.Sc-COMPUTER SCIENCE

Project

Real Time Face Mask Detector
In this project we have developed a deep learning model for face mask detection using Python Keras and OpenCV with an interactive frontend. We developed the face mask detector model for detecting whether person is wearing a mask or not.

TELEPHONE DIRECTORY MANAGEMENT SYSTEM
Telephone Directory Management System is an application aimed at storing the telephone numbers along with the details of the person concerned that will include address of a particular person. Developed as a learning project under C++ programming language.
